# 32<sup>nd</sup> SSAI Congress

IN TURKU FINLAND  
26–29 AUGUST 2013

**FOCUSING  
ON THE BRAIN**

# 32<sup>nd</sup> SSAI Congress

IN TURKU, FINLAND  
26–29 AUGUST 2013

Turku is the oldest university town and the former capital of Finland. For centuries the city of Turku has functioned as a gateway between Finland and rest of Europe - a gateway through which knowledge, culture and modern ideas have spread throughout the country. Today Turku is a modern academic town with charm of the past times.

The city has grown on the banks of the river Aura in Southwest Finland. At summertime the riversides form a common living room for everyone, inhabitants and tourists alike, to share. Along the river are located the old centre, harbour and most of the attractions like the cathedral and the castle as well as many hotels, cafes and restaurants. The city has a rich cultural life with music festival, fine museums and art galleries. Turku is also a city where nature is always near. It is surrounded by thousands of islands; the beautiful archipelago.

We have the privilege to invite you to the 32nd SSAI Congress in Turku on 26-29 August 2013. In August – at the time of the congress – the town and the surrounding nature are filled with sunshine and joy.

We look forward to meeting you all!

On behalf of the SSAI 2013 Congress Organising Committee,

*Klaus Olkkola*  
Congress President

*SSAI*  
The Scandinavian Society of  
Anaesthesiology and Intensive Care Medicine
